Tipwood® Plastic Pallets

TIPWOOD FROM TIPCO – IN STEP WITH ECOLOGY

TIPWOOD Structured Products look and feel like wood. Our Pallets made from Tipwood have all the attributes of wood, but none of the disadvantages. Tipwood Pallets are used in industries that demand a clean hygienic environment such as PHARMACEUTICALS, FOOD-STUFFS, SPECIALITY CHEMICALS etc. They offer enhanced material handling, stacking, and can be used for virtually any form of packing (bags, sacks, drums, boxes etc.). Can be used with Fork-lifts, Pallet-trolleys, Stackers, etc.

ADVANTAGES OF TIPWOOD PALLETS V/S WOODEN / METAL

- Environmentally friendly, replaced wood, saved trees
- Excellent resistance to moisture, doesn't rot / corrode
- Termite/Ant resistant
- No surface protector needed
- Rugged, durable construction, lasts significantly longer
- Does not splinter, chip or crack, making it safe to use
- Available in various colours for effective coding

BENEFITS OF TIPWOOD PALLETS V/S OTHER PLASTIC PALLETS

- Tipwood Pallets are made from Modular Construction, which make them easy to repair, hence have longer life
- More Cost-Effective in the long run
- User-Friendly, since they can be easily cut, shaped, turned, screwed or nailed
- Tailor-made to custom sizes and load bearing capacities

TIPCO INDUSTRIES LTD. is part of the 57 year old Tipco Group, a pioneer in Plastics in India. The company today has the largest independent compounding infrastructure for Engineering Thermoplastics, Thermosets and Resins. At a time, when are natural resources are rapidly depleting, we at Tipco have introduced a host of innovative wood substitute products, such as Structured Products, Composite Profiles, PP-Sheets, under the brand name TIPWOOD®. Visit us at <http://www.tipco-india.com>.
